Cúram 8.0.3.0 iFix3

CONTENTS

Introduction

Welcome to the Cúram 8.0.3.0 iFix3 release.

This is a cumulative release that incorporates all improvements, resolved issues, and third-party updates in previous 8.0.2.0 iFix releases. For full details, see the release notes for each of the previous iFix releases online at Release Notes.

For product documentation, see Merative Support Docs.

Installation

For full installation instructions, see the Development Environment Installation Guide at [Product Documentation and PDFs.](#)

The basic installation steps are as follows:

- Review the release notes and documentation for any prerequisite steps.
- Download and extract the contents of the .zip file to a local drive location.
- Ensure that all files in your Cúram installation are writable.
- Run the Cúram installer, which you can find in the INSTALLER folder.
- Run the appropriate build targets for your installation.

Upgrading

If you are upgrading from a previous version, the Cúram Upgrade Helper contains documentation and tools to help you to upgrade your Cúram application codebase and database. The Cúram Upgrade Guide describes the recommended process for application and database upgrades. The Upgrade Helper contains tools to assist you with implementing the upgrade, including tools to produce a schedule of required migrations for your upgrade, tools to provide information about database schema changes, and tools to generate initial SQL scripts for applying changes to your database. Download the appropriate version of the Cúram Upgrade Helper from [Merative Support.](#) You must log in to download software, request access if needed. Select Cúram Support and Software Download, enter your credentials and download the software.

Improvements, Resolved Issues and Third Party Updates

[Accessibility](#)
[Curam Enterprise Framework](#)

Accessibility

DT036321, WorkItem:SPM-130343 - Date picker month and year selectors are not keyboard accessible

Issue Description:
A keyboard user cannot use the date picker as the month and year selectors are not keyboard accessible.

User Interface Impact: No

Steps to Reproduce:

1. Log in as a caseworker.
2. Navigate to the Person Search.
3. Using the keyboard, tab to 'Date of Birth'.
4. Issue: The month and year navigation on the date picker is not accessible by using the keyboard.

Resolution:
A keyboard user can now use the the month and year selectors on the date picker.

Client Development Environment

Widgets

PO09775, WorkItem:SPM-130370 - The date picker is unnecessarily opened when certain modal dialogs open

Issue Description:
The date picker is activated by default when you open a modal dialog where the first field accepts a date value. The open date picker can block some of the modal dialog content that the user needs to see.

User Interface Impact: No.

Steps to Reproduce:

1. Log in as a caseworker.
2. Register a new Person.
3. On the Evidence tab for the person, select New to add email address evidence.
4. Issue: When the New Email Address modal dialog opens, the date picker for the Received Date field opens and blocks some content on the modal dialog.

Resolution:
When a user opens a modal dialog that has the date picker form control as the first field, the date picker stays closed until the user goes to the field and selects a date.

Known Issues

Please refer to the [Known Issues documented for 8.0.3.0](#).
