Installation

For full installation instructions, see the Development Environment Installation Guide at [Product Documentation and PDFs.](#)

The basic installation steps are as follows:

- Review the release notes and documentation for any prerequisite steps.
- Download and extract the contents of the .zip file to a local drive location.
- Ensure that all files in your Cúram installation are writable.
- Run the Cúram installer, which you can find in the INSTALLER folder.
- Run the appropriate build targets for your installation.

Upgrading

If you are upgrading from a previous version, the Cúram Upgrade Helper contains documentation and tools to help you to upgrade your Cúram application codebase and database. The Cúram Upgrade Guide describes the recommended process for application and database upgrades. The Upgrade Helper contains tools to assist you with implementing the upgrade, including tools to produce a schedule of required migrations for your upgrade, tools to provide information about database schema changes, and tools to generate initial SQL scripts for applying changes to your database. Download the appropriate version of the Cúram Upgrade Helper from [Merative Support.](#) You must log in to download software, request access if needed. Select Cúram Support and Software Download, enter your credentials and download the software.

Improvements, Resolved Issues and Third Party Updates

[Accessibility](#)

Accessibility

DT036744, WorkItem:SPM-129848 - While using a screen reader searching for and selecting an item results in the page crashing and an error code being displayed

Issue Description:
When using a screen reader, searching for and selecting an item by using the Enter key or Spacebar results in the page crashing and an error code being displayed.

User Interface Impact: No

Steps to Reproduce:

1. Enable a screen reader.
2. Log in as a caseworker.
3. Navigate to the Person Search page.
4. Search for a registered user and open their home page.
5. Navigate to the Administration tab.
6. Select to create a new task.
7. Select the search icon for an external user.
8. Enter % in the search field to return all external users.
9. Press tab until you reach the Select link.
10. Hit the link by pressing the Space bar.
11. Issue: The new task page does not open and an error is displayed with Error code: 'STATUS$ACCESS$VIOLATION'.

Resolution:
This has been resolved you can search for and select items using the Enter key or Spacebar while using a screen reader.

When creating a task while using a screen reader, searching for and selecting an external user will return the user to the new task page where the selected external user is displayed. The user can continue to create the task.

Known Issues

Please refer to the [Known Issues documented for 8.0.2.0](#).
